

Sow
Quick

SowQuick

Indoor seeding can be one of the most tedious tasks that gardeners face on a daily basis. Common problems are wasting and spilling of seeds. Moreover, seeds are small and hard to grab as they come in small packages which are difficult to tear. SowQuick makes sowing seeds easy by overcoming all those issues through design.

Efficient

SowQuick allows seeds to be precisely sowed therefore decreases wasting of seeds.

Users

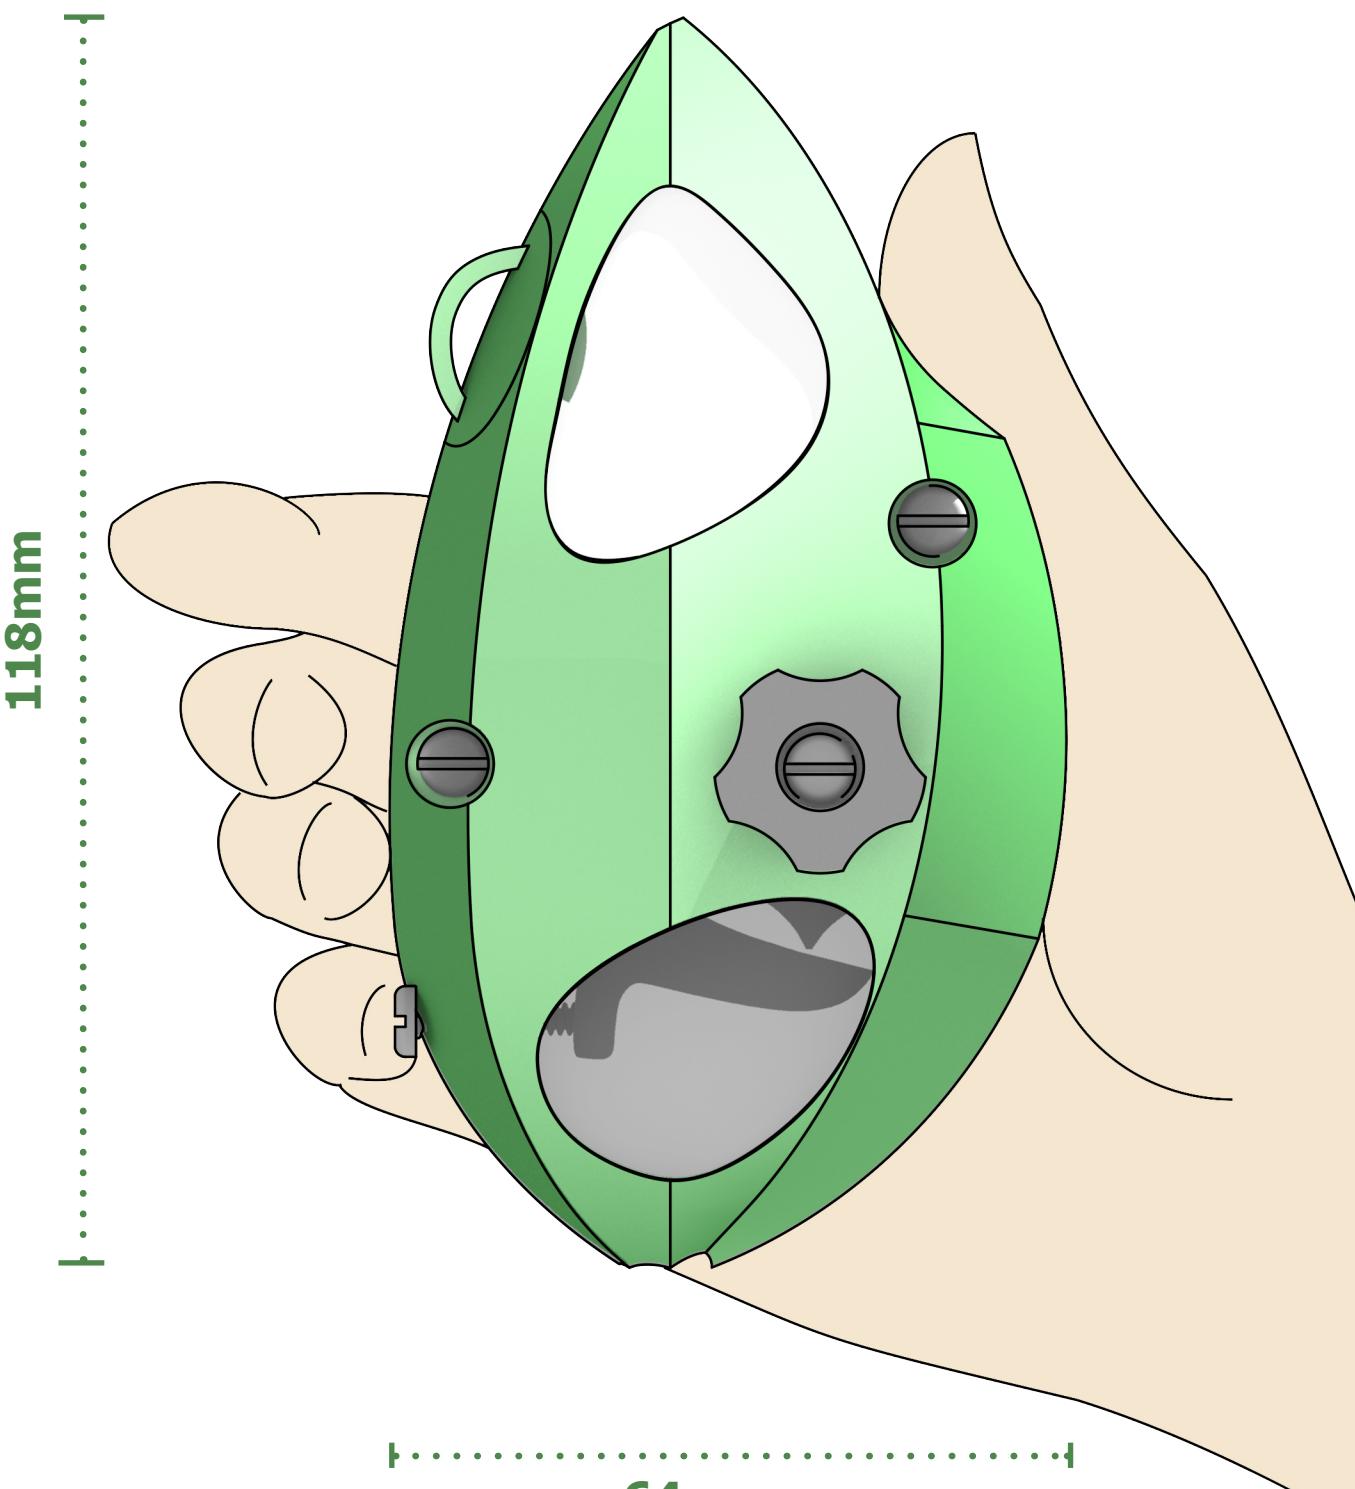

Due to its small size and ease of transportation and handling, SowQuick can be applied for both home and commercial uses.

Cost-Effective

SowQuick delivers an efficient durable product at an affordable price since it is made of plastic.

Ergonomic and User-Friendly

SowQuick has a unique form specially created for comfort. Its shape, size and transparency make it straightforward and easy to use. It accommodates for both right and left handed users.

Features

Digger

SowQuick's top is designed in a shovel-like form that aids the user to create and cover holes in soil.

Bag Cutter

The cap has a built-in blade that helps cutting the plastic bags in which seeds are stored in.

Seed Storage

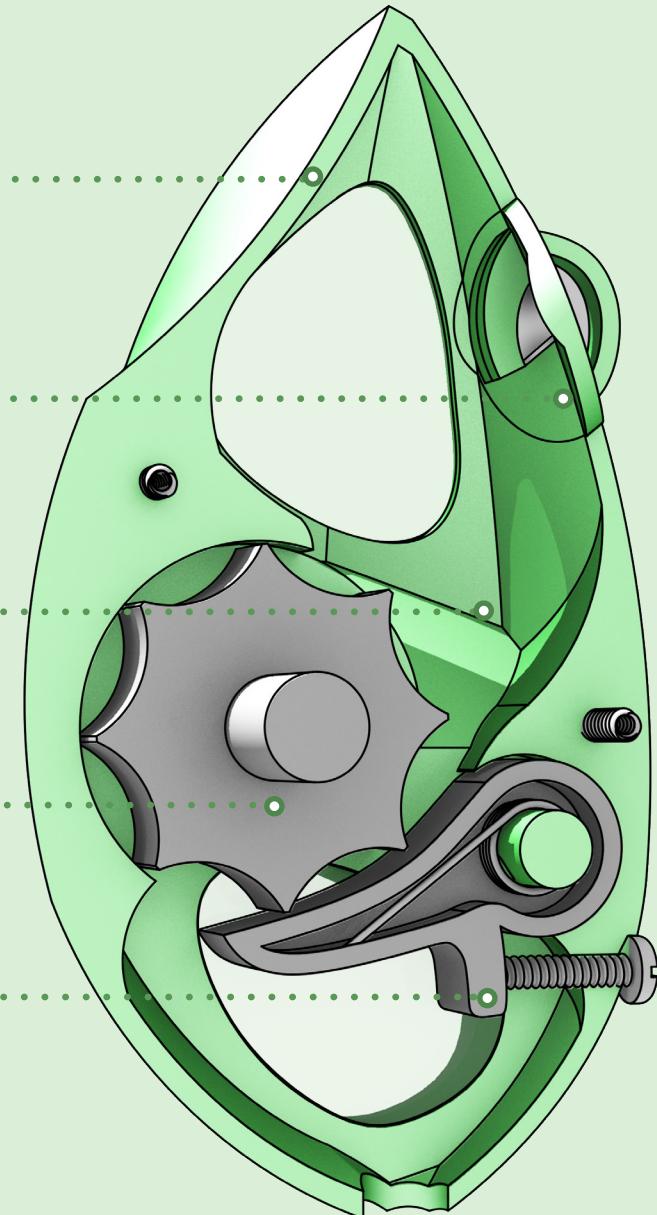

The interior compartment of SowQuick allows for the storage of seeds.

Dispenser Gear

SowQuick comes with a controllable seed dispenser gear

Control Valve

The control valve controls the flow of seeds being dispensed and can be adjusted to accomodate to the different sizes of seeds used.
